SUONENJOKI
Suomen herkkuisin kunta

VISION 2026

*The Whole Community Integrates -
Welcome to Live with Us!"*

IN THE "SMOOTH INTEGRATION PATH" PROJECT:

We are developing an integration service concept for different types of immigrants and small municipalities. We are establishing a regional immigration working group.

We support immigrants in everyday matters and in accessing services. We help them on the paths of learning and employment.

We connect immigrants with local actors. We promote cooperation between the third sector, private service providers, entrepreneurs, and other actors.

We provide orientation: We organize orientation sessions that promote integration, covering the Finnish language, local activities, and society.
